MEMORANDUM FOR: Operations Officer, NPIC
FROM: Chief, CIA/PID (NPIC)
SUBJECT: Review of ORR Memorandum

1. After reviewing the referenced memorandum it was determined that all data substantiating the ORR position concerning a list of 25 ICBM locations submitted by SAC (Cable IN 52696, 20 Oct 1962) is provided to the intelligence community by immediate OAK reporting, periodic rail searches and cable traffic.

2. The following is a resume' of the ORR paper (TCS 13512a/62-KH) dated 8 November 1962.

Ten locations negated by adequate coverage since June 1962 -- Sergach, Sverdlovsk, Bratsk, Gorkiy, Krasnaya Gorbata, Tatarsk, Samoded, Slud'yanka, Nerchinski to Olovannaya, and Berdsk.

Two locations negated by adequate coverage since February and April 1962 -- Zaozernyy, and Rzhev.

Four locations negated for ICBM deployment -- Rechitsa, suspect hardened missile launch site; Penza, suspect hardened missile launch site; Kola Peninsula, Taybola Sites 1 and 2, hardened ICBM/MREB launch sites; and Nenoska, possible R&D facility for cruise missile.

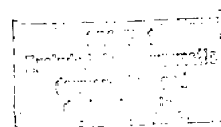

Three locations contain confirmed ICBM complexes and have been negated for additional complexes -- Kungur (Perm), Verkhnyaya Salda, and Plesetsk.

Three locations where test stands associated with R&D production facilities have been identified -- Krasnoyarsk, Perm, and Omsk.

Three locations which cannot be confirmed or denied, two are considered suspect for missile activity -- Nyandoma, possible ICBM complex; Balzhino, suspect missile activity; and Velsk, probable industrial activity.
